PROFILE

Software developer transitioning from QA and release testing into a development-focused role, with hands-on experience building full-stack web applications and exploring game development as a creative outlet.

SKILLS

- **Languages:** JavaScript, TypeScript, C++, C#, Python, HTML, CSS
- **Frameworks/Libraries:** React, Next.js, REST APIs, Node.js, Express.js, Zustand, Recoil, Tailwind CSS, Mongoose, WebSocket, Prisma
- **Dev Tools:** Docker, AWS, Redis, Cloudflare, GitHub, Git, Postman, CI/CD
- **Database:** MongoDB, PostgreSQL, MySQL
- **Soft Skills:** Problem Solving, Adaptability, Teamwork, Continuous Learning

PROJECTS

HB Realty

GitHub  | **View Project** 

(React, Node.js, Express, MongoDB, TailwindCSS, Prisma, Socket.io)

- Developed a full-stack real estate platform with secure authentication (JWT + cookies), profile management, and avatar uploads.
- Implemented property listings with 6 advanced search filters, scalable to 1,000+ properties, with interactive map integration and real-time messaging to enhance discoverability and user engagement.

AI-SEO Landing Page

GitHub  | **View Project** 

(React, Next.js, TailwindCSS, Framer Motion)

- Designed and developed a modern, responsive landing page optimized for 17+ screen resolutions.
- Enhanced user engagement with Framer Motion animations, increasing time on page by 30%.

Game Dev Projects

Yurei Run  : Built a Japanese-themed endless runner in Unity (C#) featuring obstacle mechanics, player movement, and progressive gameplay challenges.

Ping-Pong  : Developed a C++ game using Raylib with custom collision detection, physics, player-vs-computer gameplay, and adaptive difficulty.

Snake Game  : Recreated the classic Snake game using Unity and C#, implementing player movement, collision detection, scoring, and game-state mechanics.

EXPERIENCE

Electronic Arts (EA) - QA Tester

04/2025 – Present | Hyderabad

EA Internal Tool

- Contributed to an EA internal tool, helping streamline build verification and release processes.
- Worked with Docker, GitLab, Jenkins, and Perforce, gaining hands-on experience with SDLC, CI/CD, and release workflows.
- Performed end-to-end validation across various release cycles, ensuring features met quality and release requirements.

Battlefield 6

- Worked as part of the QA team for Battlefield 6, performing feature, UI, functional, and regression testing across development builds.
- Reported, analyzed, and tracked bugs; verified fixes and collaborated with QV Analysts, designers, and developers to improve game stability and quality.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science

S. K. Somaiya Degree College of Arts, Science and Commerce

Higher Secondary School Certificate

K. J. Somaiya Junior College of Science and Commerce

100xDevs Cohort

Web Development, DevOps Basics
